ANNOUNCEMENT FOR COURSE SELECTION

1. The course selection system will be active from 11:00 a.m. on Monday, July 20, 2026, to 12:00 p.m. on Thursday, July 23, 2026.
2. The course selection procedure is entirely online. It's important to note that if the number of students registering for a course is less than the set number after the first online course adding/dropping, the class will be closed. This underscores the importance of following the procedure correctly to secure your desired courses.
3. Please be aware that a student can drop **ONLY** two courses in a semester. This limitation is in place to encourage careful course selection. It's crucial to select your courses thoughtfully, considering your academic goals and workload.
4. Graduate-to-be students who are taking lower-level classes or courses without specified levels must wait until mid-July to receive their diploma, as the final grade calculation date for these courses is the same as that for non-graduating classes. Please choose your courses carefully.
5. Students who haven't selected courses successfully or have been rejected due to the limited number in the preliminary courses section stage. Please use this period to complete the course adding/dropping procedure.
6. At this stage, the selection will be conducted in order. Students must log in to the information system and "click" the subjects of selections. Those who submit selections successfully first will get the place.
7. Those fully occupied courses will not be available for selection unless someone on the class list has given up his/her place. Meanwhile, please note that if the course has set a minimum number to be open, it will not be available for students to drop the course unless there are some more students who register for the course.
8. All curriculums can be inquired about on the information system. (Instruction: Information Service→ Information System→ Inquiry Module→ Course Catalog)
